SCOPE OF EXAMINATION: Written test will cover knowledge, skills, and/or abilities in such areas as:

Preparing written material

These questions test for the ability to present information clearly and accurately, and to organize paragraphs logically and comprehensibly. For some questions, you will be given information in two or three sentences followed by four restatements of the information. You must then choose the best version. For other questions, you will be given paragraphs with their sentences out of order. You must then choose, from four suggestions, the best order for the sentences.

Understanding and interpreting written material

These questions test for the ability to understand and interpret written material. You will be presented with brief reading passages and will be asked questions about the passages. You should base your answers to the questions **only** on what is presented in the passages and **not** on what you may happen to know about the topic.

Applying written information in a correctional services setting

These questions test for the ability to read, interpret, and apply rules, regulations, directives, written narratives and other related material. You will be required to read a set of information, and to appropriately apply the information to situations similar to those typically experienced in a correctional services setting. All the information needed to answer the questions asked concerning the situations presented is contained in the rules, regulations, etc., which are cited.

Observing and recalling facts and information

These questions test for the ability to observe and recall information presented. You will be presented with information describing or depicting prison scenes or other facts. You will have a short time to observe and memorize the information before it is collected by the monitor. You will then be asked to recall specific details about the information presented.
